EASTERN NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The [illegible] Complication—The Militia [illegible] in Little Rock—Brooks Supported by the Better Part of the People

LITTLE ROCK, Ark, April 18.—Baxter's forces have been increased by the arrival of about 1,000 men from Pine Bluff, Washington and Bakersfield. They have surrounded the State House so as to cut [illegible]. Brooks has sent recruiting officers out. Three [illegible] of Baxter's reinforcements have been cut [off].

ST. LOUIS, April 18.—The *Democrat* has a special from Little Rock via Duvall's Bluff. It asserts that Brooks is in receipt of assurances from every point of the State that the people will support him. He holds the Court House and all Government offices, and the Great Seal of State and is supported by other State officers, the Chief Justice of the Supreme Court, and all leading men of the [illegible] Democratic and Republican parties, while Baxter has appointed his military officers from the Bourbon Democracy. Brooks' position in the State House is guarded by 300 men and two pieces of artillery.

LITTLE ROCK, Ark, April 17.—Judge Whytock to-day overruled the motion to set aside the judgment in the Brooks-Baxter case but sustained the motion to amend the record so as to show that a demurrer was entered with the knowledge of Baxter or his counsel.

Gen. T. P. Dockery has been appointed by Baxter military Governor of the city and has issued an order for enrolling citizens. Leading citizens have issued an address to the people of the State urging them to sustain Baxter. The U. S. troops occupy the United States Court-room in the center of the city.

WASHINGTON, April 17.—The Secretary of War has instructed the officer at Duvall's Bluff to proceed to Little Rock and investigate the report that Baxter seized the telegraph office to prevent the Brooks party from using the wire, and to see that telegrams from the General Government are not interfered with.

Postmaster General Creswell has telegraphed the postmaster at Little Rock to deliver mail matter addressed to "Governor Baxter" or "Baxter Governor of Arkansas," to Baxter, and those similarly addressed to Brooks, to Brooks, and to hold letters addressed simply to "Governor of Arkansas" for the present.

The Mayor of Little Rock Telegraphs to Washington for Military Assistance.

WASHINGTON, April 18.—Mayor Kramer of Little Rock telegraphed to the Attorney General to-day for aid in preserving the peace of that city. The Attorney-General replied that United States officers stationed there had been instructed to prevent bloodshed, and asked the Mayor if the people of Arkansas have not patriotism enough to allow the question to be settled peacefully and lawfully and not bring on the State the disgrace and ruin of a civil war.

ST. LOUIS, April 18.—A special from Boring Cross says Brooks is being rapidly reinforced and Baxter's friends are not enthusiastic.

Butler's Friends Grieving over their Defeat.

BOSTON, April 18.—Butler's friends are unable to conceal their mortification at their defeat in the election of Washburne, who thrice defeated the General for Governor.

The North Carolina Vesuvius Heard from Again.

RALEIGH, April 18.—A private dispatch this evening reports that Bald and Stone mountains are alarming the adjacent counties with their trembling, which is much more serious than previously. Scientists confidently expect an eruption.

Bank President Removed by Directors.

NEW YORK, April 17.—Emil Sauer, President of the [illegible] bank, was removed to-day by a vote of the Directors. He is charged with irregularities, and according to Sauer's own admission of having loaned to himself $65,000 of money of the bank, the collateral given being property in Brooklyn. The capital of the bank is $2,000,000 and its [illegible] $70,000.

WASHINGTON, April 18.—The President's remarks to the New York committee yesterday are accepted as indicating that he will not veto the Senate currency bill.

Grant's refusal to interfere in the Arkansas gubernatorial strife is commended as a wise reversal of his former course in Louisiana.

Grant on the Finance Bill.

The Cabinet session to-day was unusually long and fully attended. The Senate Finance bill was discussed, the President explaining his views at length. What they were has not yet transpired. It is generally believed that the President will approve the bill.

BY ATLANTIC CABLE.

The Disaster to the Amerique.

PARIS, April 18.—A few of the passengers of the Amerique have arrived. Their accounts of the disaster state that a storm commenced on the morning of the 13th, increasing by the afternoon to a gale and in the evening to a hurricane, filling the engine room with water. The ship rapidly filled during the night, putting out the fires three times. On the morning of the 14th the water in the hold had so increased that it was evident that the ship had sprung a leak. All efforts to find the leak or reduce the water were futile, and by afternoon the ship became unmanageable. The officers informed the passengers of the condition of affairs and counseled coolness. They then signalled an Italian vessel which had been [standi]ng gallantly by, and the transfer of passengers and crew was effected with only one casualty—the drowning of the first officer—though there was a fearful sea. There are various surmises as to the cause of the leak. One is that the wheat in the hold, becoming wet, swelled and started the rivets.

[illegible] English Farmers and Laborers.

NEW YORK, April 18.—A London letter says in the Eastern Counties of England a very bitter conflict has broken out between the farmers and their laborers. The latter have joined a union which was started a couple of years ago with its headquarters at Warwickshire, and have demanded an extra shilling per week. This has been refused and the laborers have frequently struck on one or two farms. The farmers generally retaliated by locking out all union men and declaring that henceforth they will employ only non-unionists. It is [said] the gentry are supporting the farmers and threaten to eject tenants who do not hold aloof from all relations with unionists.

LONDON, April 17.—A lock out of 15,000 miners is [illegible] all.

[illegible], the newly appointed Solicitor General, appeals to the voters of Preston for re-election. It is understood that Jacob Bright will contest the election.

Funeral of Dr. Livingstone.

The funeral of Dr Livingstone took place this morning in Westminster Abbey and was attended by a large crowd, including a full representation of the Royal Geographical Society. The Queen and the Prince of Wales sent their carriages. The [illegible] service early to-day and another will be held by Dean Stanley to-morrow. Livingstone's grave is in the center of the nave of the Abbey near Robert Stevenson.

THE WRONG PLACE TO GET CONFUSIONISTS

GARDINER, April 15, 1874.

TO THE EDITOR OF THE OREGONIAN:

Thinking perhaps our friends in the Willamette would like to know something politically of this place, I will give you a history of politics in this immediate vicinity. Living in the remote part of the county we had not time to answer to the first call for the Independent meeting at Roseburg. However we had quite a lively primary meeting to send delegates to the County Convention. There is not one person at this place who has expressed the least sympathy for the (so called) Republican or Democratic party. The Republicans and Democrats (so called) of this county are going to unite, and fearing we would not know they had united they sent down a long, lank specimen—one of their railroad and [illegible] specimens—to enlighten us as to the political standing of the enlightened portion of Douglas county. This gentleman also informed us that we can have a Senator, Representative or in fact anything we want. They even propose to kill the fatted calf if we will only come back to the, to the, to the—well I forget whether he said Republican party or Democratic party. Since I think I have put on my thinking cap I believe we are requested to come back to both Republican and Democratic parties. Well, we cannot quite do that. We have never traveled with Holladay's Circus, and we cannot ride two horses at once. I will say to our friends of the Independent party, go ahead! We will give you a big little boost at this place.

TRUE REPUBLICAN.

Daniel Callahan, of Golden Eagle Hotel, Sacramento, has filed a petition in bankruptcy; debts $165,000, assets $20,000.

SAN FRANCISCO, April 19.—A disastrous conflagration occurred this afternoon at Alcatraz Island, by which all the frame buildings on the south and west side of the island were destroyed; they were used as store houses and barracks for the garrison. The Fire Department of this city responded to the alarm, and several engines were taken to Meiggs' wharf, but as there were no facilities there for shipping them across they were not sent. The fire raged about one hour. Fortunately the magazines on the hill were not reached, although several small explosions were observed from the city. The cause of the fire and amount of loss are not known at present.

Professor Allen made a full ascent with his captive balloon Sierra Nevada this afternoon from Woodward's Gardens. When last seen he was hovering over Alameda, going in a southerly direction.

Thousands left the city to-day on various picnics of military and civic societies.

The weather is warm and pleasant.

Interior California.

OAKLAND, April 18.—The pacing race at Oakland Trotting Park this afternoon between Defiance, in wagon, and St. James, to harness, was won by Defiance in three straight heats. Time 2:19¼, 2:25, 2:22½. The trotting race of three quarters of a mile was won by Charlie. Time 1:49, 1:50, 1:51.

The British Benevolent Society held the largest picnic in several years at Badger's Park to-day, over six thousand persons being present.

NEVADA, April 18.—William Grant, a sheep herder who was brought from Truckee seven months ago and committed to jail on a charge of murdering his employer, was tried to-day before Judge Reardon and found guilty of murder in the second degree. After the jury rendered the verdict he was placed in jail, and twenty minutes afterwards was found bleeding dangerously from an artery wound he had inflicted on his arm in an attempt to commit suicide. Physicians arrived in time to save his life.

The trial of Francis Blain, for the murder of Lind, at Bloomfield, occupied the District Court nearly all of this week. The jury found a verdict of not guilty.

NEVADA.

PALISADES, April 18.—The engine for the Eureka and Palisades Narrow-Gauge Railroad arrived to-day and a train of cars ran out to the end of the track, which is about a mile from town. Everything worked smoothly. They expect to rush the work now until the road is completed.

WASHINGTON TERRITORY.

SEATTLE, April 18.—The bark *Jenny Lind* went ashore at high water on Sandy Point, about five miles from this city, at 3 o'clock this morning. She was lying on her beam ends. The steamer *[illegible] White* has gone down to tow her off.

BAKER COUNTY CORRESPONDENCE.

BAKER CITY, April 13, 1874.

TO THE EDITOR OF THE OREGONIAN:

Our spring has opened auspiciously for the mining and agricultural interests of the county. While the past winter was a severe one on stock for those who had not provided for them, the general loss is perhaps much less than that realized in every other part of the coast. At this writing there is every appearance of a storm, although spring weather has bid a welcome to agriculture and horticulture and their numerous votaries.

IMPROVEMENTS.

In the way of building, painting and beautifying, Baker City are constantly going on, and all she lacks to make her a prosperous inland town is the reduction of freights so that her people can live on the same amount—or nearly so—that it requires to live elsewhere. Whether the Portland, Dalles and Salt Lake Railroad will be a benefit to her in the future remains to be seen, always provided that it—the present bill in Congress—shall pass. Our people are building many hopes upon that project, and it ought to pass and become a blessing to Eastern Oregon and the adjoining Territories.

THE POLITICAL OUTLOOK

For the Independents is looming up. Quiet but numerous are the persons who declare their intention to vote the Independent ticket. Should they make proper State nominations there is no question that it would carry from one fourth to a third of the votes of this county. The refusal of several of the nominees of the recent pseudo Republican Convention to run on their ticket for county offices has dampened the ardor of their cause very much indeed. And well it might, for the Convention was controlled by Federal patronage. The principal man who manipulated its doings quietly left town, and the news has been telegraphed here that he has received his reward in the nomination for Secretary of State at the hands of the party that has outlived its usefulness, if the present history of its peculation and extravagance is an index.

Mr. Foster will have several things to explain in his past political career before election, prominent among which will be a letter he wrote to one George Sl[illegible], while he was County Clerk of this county, in the year 1866, in which he directed said Sl[illegible] to keep back the poll books of Burnt River valley precinct until after the expiration of time [illegible] for the election, if said precinct should give a Democratic majority. If C. M. F. or any of his partisan friends deny this the proof will be brought, with the letter he wrote on the subject. His conduct, too, as Federal Deputy Mineral Land Surveyor will not stand the scrutiny of the public. It has been said that if elected Secretary of State he would hold it for life, because his opportunity to carry out the principles of the "Slocum letter" would be so much greater that the returns would always show him (F.) as receiving a majority of all the votes. It must be remembered that F. was the nominee of his party at the election of 1868 for re-election to the office of Clerk of this county.

Before election I propose to give a little chapter of the history of the Democratic candidate for State Treasurer, the man that the *B[aker] [illegible] D[emocrat]* says is a "farmer." A wonderful farmer is Farmer Brown. It is true [that] he owns a piece of [illegible] and [illegible] [illegible]. And if the people of Oregon could see him [illegible] one week [illegible] would not say that he was an agriculturist.

If either of the nominees of the old defunct parties get a respectable vote on the State ticket it will be [illegible]. They are not known. That they will run behind their respective tickets here there is [no] question. They are known, and to know them is to ignore them.

HYPOCRISY.

At the proper place I shall have called the public attention to the hypocritical pretensions of the so called Republican Convention. Fealty to party was the ostensible prescription that was doled out to all candidates, and yet the Convention put on its ticket one man who never voted the Republican ticket and others who never voted it straight. Why did that Convention put the straight-out Democratic ring candidate on their ticket? Because he was a friend to C. M. F. is the truthful answer. Oh! consistency, thou art a jewel indeed. Republicans cursing Democratic rings and endorsing the ring's candidates. This is the spectacle. This is the Republicanism of Baker county. It proves that the rapid march of events has broken down party lines, demolished party hostilities and presented to the thinking people of this county the fact that so far as the old parties are concerned it is simply a fight of the "outs" against the "ins" the county over. More anon.

VOX POPULI.

CURIOUS ECONOMY

SALEM, April 17, 1874.

TO THE EDITOR OF THE OREGONIAN:

I am afraid our Capitol Commissioners haven't used due diligence in acquainting the people with the arduous nature of their duties and the herculean labors they impose. There are only three of them, [illegible] at $10 per day (for the three of course), with a secretary ditto and at the same low figure, a superintendent (the only one who has much of anything to do) at perhaps not more, with office rent, gas, fuel, stationery, &c., all costing likely not above thirty dollars per day. A trifling sum for a liberal people and a flowing treasury. A modest establishment for a small State House and yet a smaller State. Neat, but not gaudy.

And common rumor, the lying jade, has it that the rising walls of the Capitol are to be converted into a vote manufactory (with the State's money) after the manner of the Navy Yard at Mare Island and, more recently, those of Portsmouth and New London. It is hoped such worthy endeavor will not result as it did in the above named instances and make two votes against where it makes one for, just from sheer dislike of such innocent proceedings on the part of fair minded persons.

I have not referred to this matter, much talked of by all classes here, with the expectation that any change will now be effected. But to call the attention of the voters to the matter, and through them that of the Legislature to be chosen in June, that they may devise a plan by which all of this service that is useful or necessary may hereafter be obtained for one third the present cost—and that with otherwise increased advantage to the public service.

MARION COUNTY POLITICS

SILVERTON, Oregon, April 15, 1874.

TO THE EDITOR OF THE OREGONIAN:

Many voters in this county who desire to act with the Republican party complain very much at the action of the Republican County Convention in placing upon the ticket Joe Engle for State Senator and Wm. Darst for Representative, as they remember that during the last session of the Legislature these men forgot (?) that they were in that body to legislate for the people, and did vote for increased fees to officers that the people thought were already receiving enough for their services.

Darst voted for Senate Bill No. 18—increasing pay of the Judges of the Supreme and Circuit Courts. Engle voted for the bill increasing the fees of Sheriffs and Clerks, and all this after having grown hoarse in crying for retrenchment and reform during the last canvass here. The voters here will not give them a chance to betray them again.

Col. C. A. Reed, who has been placed upon the Republican ticket for Representative in place of Minto (declining), is by far the best on their ticket. The Colonel is something of an Independent himself and is regarded as a sound man, and will poll more votes than any man they have in the field.

The Independent State Ticket gives general satisfaction here and will poll a large vote in this county. The "Straight-outs" of both parties say that it is a good ticket. It will draw votes from all sides. The outlook is brightening all the time. The people are tired of party lash and will submit no more.

INDEPENDENT.

PATRONS OF HUSBANDRY

The *Indiana Granger* predicts that the next Governor of that State will be a Patron.

The County Council of Grangers of Lane county will meet in Eugene City on the 5th of May.

A Grange Shipping Association, with a capital of $100,000, has been established at [illegible], Ill.

A Grange exclusively composed of colored Patrons has been formed at Knightstown, Henry county, Ind.

The Patrons of Illinois are moving in the matter of aid to the northwestern homesteaders, and Master Golden calls for a bushel of wheat from every Patron.

In the 1,819 Granges in Iowa there are no less than 25,000 women, each of whom is intrusted with a vote. The women are thus being rapidly prepared for the ballot by instruction in parliamentary practice, debate and general business.

Olympia Grange held a Harvest Feast on the 15th, with twenty-eight members advanced to full membership as Patrons—and held a council on business of the Order, in which eight or ten Granges will join them. Daniel Clark, Master of the State Grange of Oregon and Washington Territory, will be present.

Daniel Clark, Esq., Master of the State Grange, goes to Astoria the first of this week. From there he will return to Portland and proceed thence to the Dalles and through Wasco county, and then into Grant and to Canyon City for the purpose of organizing Granges at different points on the route. He will be absent from here about three weeks.

Following are the officers of West Chehalem Grange, Yamhill county: M., Lora Nelson; O., [illegible]; [illegible] Mrs. M. A. Smith, Sec.; G. Noble, [illegible]; J. Noble; S. J. Bryant, G. A letter from Willamette Fork to the *State Journal* says: The Grange here is in a flourishing condition, numbering 53 members, with a class of ten on whom the First Degree will be conferred at our next meeting, Saturday, April 17th. On the 27th of March 14 candidates were initiated in the Fourth Degree of our Order, after which a grand social banquet was the affair of the evening. Roast turkeys which would have tickled the palate even of an editor were carved and hid from view.

The Siamese Twins were Baptists. But says the [illegible], suppose one had been a disbeliever, how could the other have been immersed? But another says they were not Baptists, they were United Brethren.

The capacity of the Insane Asylum at Steilacoom is being increased very much—at the personal expense, however, of the Superintendent, the Territory hitherto refusing to give one single dollar towards this absolutely necessary outlay. The Asylum now contains 70 patients, a higher number than ever before reported. Two men were discharged this morning as cured, namely, Wm. Green and Samuel Ross, both from Vancouver. A matron is wanted in the institution.—So says the *Tribune*.

The Olympia *Transcript* of the 18th says: Captain Lawson's coast surveying party, with the brig *Fauntleroy*, commenced operations for the summer early this week. They have been engaged in resetting signals which have been blown down during the winter, and will immediately finish the work of this bay. This will take about one month's time. The work is between Millers and Dofflemeyer's Points. After this is finished the party will go down the Sound and continue other work begun sometime since.

An election for Chief and Sub-chiefs recently held by the Nez Perces tribe of Indians at Lapwai resulted as follows: For Head Chief—Lawyer 41, Reuben 46, Timothy, Jr., 9, Jacob 2, George 3. George Waters' majority 9. This is the first election of the kind ever held by these people.

From the Olympia *Transcript*: A shooting affray occurred at Gray's Harbor a few days ago between two settlers, in which one of them was fatally wounded. A man named McGee, well known as an old resident on the north side of the bay, and owning a large stock ranch, has one of his claims rented to a man named Dwyer, between whom there has been no good feeling existing for some time, it being supposed that McGee wanted to drive Dwyer away. On Monday last we believe it was, a dispute arose between them about some cattle, when McGee attempted to shoot Dwyer with his rifle, but the cap snapped and he failed. Dwyer then shot McGee twice with his revolver, once through the nose and again in the back, McGee at the same time advancing upon him, until Dwyer ran and left for Oahut, at the point where the Indian Agent Gordon Henry had just arrived on his way from Olympia to the Quinault Reservation. McGee then commenced stoning the house where Mrs. Dwyer was, and compelled her to leave for the Oahut for safety. McGee was arrested by the authorities soon after. His injuries had not been ascertained but are probably not serious. He [illegible] was very bloody from his wound.

LETTER FROM NORTHWEST

EUGENE, April 18, 1874.

[FROM OUR TRAVELING CORRESPONDENT.]

The wet and cold days of Sunday and Monday was succeeded by bright and beautiful sunshine ever since. The portions of the Willamette Valley from Salem to Eugene never appeared to more advantage at this season of the year than on Wednesday, Thursday and Friday. The previous rain had refreshed the soil and stimulated the growth of wheat, grass and flowers, and the joyful sunshine made all nature fragrant; the birds were pairing and singing, and the plowmen were whistling their merry tunes, while industry and cultivation met the eye at every point. It was a rural scene of rare beauty. The wheat crops far and near and the general appearance of the country indicate an abundant harvest. A visit to the

INDEPENDENT STATE CONVENTION

In Salem this week was gratifying as a confirmation of the impressions I had formed of the opinions and intentions of a large portion of the leading farmers of the Willamette valley. In point of numbers, intelligent and influential men, it surpassed the most sanguine expectations of the warmest friends of the movement. A leading Democrat from Portland, who came up to witness the proceedings, told me in the presence of one of the best men of Salem that the convention was composed of the most valuable and influential men in the State. This statement was fully endorsed by the Salem gentleman, who was until lately a strong Democrat, but who is now an active friend of the Independent party.

In conversation with a large number of the delegates I never met a body of men more determined to act independently, honestly and with a single purpose for the good of the country. Their co-operation to lay such plans and nominate such men to office as would secure the confidence of the public, and lay the axe to the root of the evils that have accumulated in the State, were obvious to the most superficial observer. The name of partisan, politician, or those known or even suspected of corrupt conduct, were never mentioned in private or in open convention for office! There was in the members of the Convention, and in the nominations for State officers, a complete revolution from the practice of corrupt rings of the old parties that manufacture and run their conventions. The address of

PRESIDENT CAMPBELL,

Of Monmouth College, before the Convention, manifested the true spirit of the reform movement, and the cordial and enthusiastic response to his sentiments showed that the old patriotic fire still lives in the breasts of the people. His nomination for Governor, at a private meeting of the members afterwards, was unanimous and cordial, and endorsed in open Convention with enthusiasm.

MR. T. W. DAVENPORT

Was the general favorite of the delegates for Congress; he was nominated in Convention with as much enthusiasm as Mr. Campbell was for Governor. Mr. Davenport's address at the close of the Convention was one of the most appropriate and telling for the occasion that it has ever been my privilege to hear.

The members of the Convention separated with the conviction that we have, at last, got the right men for the right place; we have now got something worth working for, and we will work with a will to elect the men we have nominated.

THE RESULTS

Of this Convention and these nominations mean the breaking up of corrupt rings, the clearing out of old abuses of every kind and degree, low taxation, cutting down expenses, cheap government, controlling by law dangerous monopolies, electing to public offices none but honest, capable and patriotic men—men who love their State and country better than party. Oregon will respond to the call of California to assist in bursting the shackles that the monopolists and corrupt politicians of the Pacific coast have been trying to bind us with. And California will render invaluable aid to Oregon on this occasion by sending their patriotic Governor Booth to visit our State and speak to the people of Oregon on the great questions of reform that are now before the public.

THE CAMPAIGN

Will be one of the most interesting, important and exciting that ever took place in this State. Mr. Campbell, Mr. Davenport and their numerous aids, with Governor Booth, will not be easily matched; they will stir the minds and hearts of the people to independent thought and action as they never were before. The patriotic fire will be rekindled and burn with a fresh, warm and cheering brightness that will carry all obstacles before it and place the Independent cause triumphantly in the State.

THE ACTUAL CONTESTANTS

The Ring organ takes exception to our remark that Tim Davenport would make it particularly tropical for Richard Williams and declares this indicates that the Independent movement is intended mainly to defeat the Republican candidates We assure the *Bulletin* that if we had not supposed the Independent people of Oregon entered into this movement in good faith and in good faith intended to beat the party candidates if that could be done we should have been the last persons to lend them even the feeblest assistance The *Bulletin* is certainly warranted in assuming that we expect Davenport to clean out Richard to the bed rock But the ring organ seems to think we ought to pay some attention to LaDow Why should we? Who is Mr LaDow, that we should mention him in connection with the office of Congressman! He has been out of the field ever since the next day after he was put into it Nobody will ever hear of him again until the election returns are published, when it will be found he has barely votes enough to keep them from being set down as "scattering" Where is Senator Kelly? and who ever mentions him? If he should die his best friends would not miss him till six months afterwards No one can assert with any degree of certainty at this moment that a dray has not run over him and crushed him If it has, it is safe to say he never uttered a word of protest And yet Kelly is a good, or at least a goodish, person So is LaDow, if we are correctly informed But one Kelly is enough To match the one we have in the Senate—if he is still alive—with one in the House would be going it rather strong

We repeat, LaDow is not a candidate for Congress His name is on the Democratic ticket, to be sure, but that is merely a matter of form Potentially he is out of the race He and Tolman have both been put into their little beds to stay The contest for Congress is between Tim Davenport, the People's anti-monopoly candidate, and Dick Williams, who goes forth with the collar of the railway monopoly on his neck, and for Governor it is between Mr Campbell, the People's next Governor, and Grover, who is the head of a ring of treasury-grabbing politicians Grover has not made any very serious grabs himself, because he has been too much engaged in "struggling" against the litigant law and the other iniquities of his administration, but he has shut his eyes while others grabbed

This is the exact situation of the fight just now, and it will become more and more apparent as the day of election approaches

THE RELIGIOUS TEST

The *Bulletin* attacks Hon. T W Davenport People's candidate for Congress, on the ground that he is a spiritualist. We neither know nor care whether this charge is true or not, and for two reasons, either of which every rational man will agree is valid and sufficient First, we do not perceive how a man's religious opinions affects the question of his qualifications for a Congressman We had supposed that in this free country a man has the right to enjoy his religious belief without being attacked through the newspaper press for it as if it were a crime This is one sufficient reason why we need not care whether Davenport is a spiritualist or not. The other is technical It is, that under any possible view of the case, his opponent Mr Williams, (LaDow is not in the field) has no advantage over him Williams is regarded by some as a spiritualist, by others as an atheist No person will claim that he is not one or the other of these, or rather that he is not both, by turns The main difference between the two men in this respect, if Davenport is a spiritualist, is that Dick is the most accomplished master of profanity in Oregon, while Tim cannot boast of any such accomplishment But if it has come to this that a man is to be proscribed and scandalized because he does not agree to every article in the creed, all the fine talk we hear about religious liberty is a fraud and a sham

WELL DONE

The Democratic District Convention which met in this city last Saturday acted wisely in not making any nominations for Judge and District Attorney The nomination of straight-out Democratic candidates could effect nothing more than to draw off a few votes from the People's candidates, and thus contribute to the ring ticket

We are not surprised at the course pursued by the Convention, for we know most of the delegates and know them to be men of sound judgment and liberal views Such men would naturally see the utter hopelessness of the attempt to elect a straight Democratic ticket, and the folly of giving the votes of any number of Democrats to the ring nominees, especially when the principal candidate on the people's ticket, Hon E D Shattuck was taken from the Democratic ranks Only fanatical partisans, or men actuated by some peculiar motive other than loyalty to party could advocate such a suicidal policy The vote of the convention on the adoption of the resolution endorsing Shattuck for Judge and H Y Thompson for Prosecuting Attorney wanted only two votes of being unanimous the only votes against it being cast by Mr Eugene Semple of this city and Col W L White, of Clackamas, who, under instruction cast the vote of S Huelat against the resolution at the same time casting his own vote for it The action of the convention gives great satisfaction to the community and we understand the gentlemen who desired a straight ticket and were overruled cheerfully accept the result

Dio Lewis tells the New York people to put no trust in the report that he is a sensationalist, for an ice cart jogging leisurely along the street possesses a temperature as high as that of his blood when he thought of the matter He was simply an old fashioned, conservative fogy—for $50 a day orders solicited

A STAND OFF

When Hon T W Davenport made his appointment to speak at Portland last Saturday night, he was not aware of the appointments of Mr Williams That gentleman had his appointment for Salem at the same hour, and Mr Davenport was unwilling to let an opportunity pass to meet the great little man of the ring Mr Davenport writes us that he will be with Richard every day from now to the first Monday of June and that they will not be in Portland till after they have made the tour of the southern part of the State He regrets exceedingly to have found it necessary to disappoint the people of Portland and would not have done so had it been possible for him to avoid it without appearing to wish not to meet Williams So now the two candidates are about even so far as Portland is concerned Dick failed to connect on his appointment here a week before.

SOUTH CAROLINA AGAIN

Several weeks ago we published a synopsis of the statement of grievances put forth by the South Carolina Tax payers Convention as a justification for the petition to Congress asking for the interference of the General Government and that if no better remedy could be devised the State Government should be relinquished and a Territorial Government instituted in its stead

Since that publication the Legislature of South Carolina has adjourned and the papers are counting up the bills contracted by that body We find that the total appropriations made amount to $1 798 270 55 Of this amount $400,971 17 was for public printing $360 000 for legislative expenses claims against the Legislature for furniture &c $219 069 42 contingent fund $45 000 sundries $52 180 salaries $162 200 public schools $300 000 public asylums $193 550 It will be seen that with the exception of the last three items the entire amount was expended by the Legislature. In the session of 1868 9 the legislative expenses were $181 8[illegible]9 and the cost of printing $12 000 This was the first year the State was in the hands of its present rulers During the six years since then the amount appropriated for those two purposes alone was steadily increased from $193 839 to the enormous sum of $1 632 240

This is a fine condition of affairs isn't it? And haven't we good reason to be proud of our South Carolina our Arkansas and our Louisiana—all sovereign States in the land of the free and the home of the brave?

Mr R J Hinton, the gentleman who has a quarrel with Baker Commissioner of Pensions writes to the New York *Tribune* a long letter in which he confesses that for 21 months and 11 days he drew a salary of $100 per month from the United States Treasury that it was 'for political purposes and services, and that he never rendered any service to the Government in any of the bureaus' Hinton gives his own opinion of the transaction in the following words

> It was an abuse and I knew it but like many another I chose, as it seemed to me at the time, the lesser of two evils in order to aid in securing the triumph of the Republican party This attack gives me a vivid personal illustration of the truth of an old axiom that one may not do evil that good may come of it I did my best to re-elect U S Grant I am not sorry for it, but frankly confess to the wrong to which I was in part an accessory

The *Tribune* is disposed to ridicule Hinton's remorse Here is its comment on the confession "This is truly refreshing We begin to understand the enthusiasm with which the Great Silent Man inspires the popular heart when so good a gentleman as R J Hinton submits to the anguish of drawing a salary of $100 a month for 21 months and 7 days without rendering 'any service in the Department or its bureaus,' choosing to accept a stipend that he had not earned and to endure the consequent wracking and wrenching of his moral sentiments, as 'the lesser of two evils, in order to aid in securing the triumph of the Republican party

In the debate on the Alaska Seal Fisheries Grant copious extracts from which were published in the OREGONIAN a few days since Representatives Beck and Schumacker gave some figures to show the enormous profits made by the monopoly According to the statement of the former gentleman, a lady's suit of seal skin contains but three skins which cost the company (Kohl Hutchinson & Co) $2 50 each and yet these suits are sold in New York at $200 to $1 000 The skins are first shipped to San Francisco thence to London where they all go into the hands of a single firm which is said to be the exclusive possessor of the secret of dyeing and preparing them for market The islands on which the seals are now caught are rented by a company that is nominally American, but in reality made up of Jew capitalists in Hamburg Frankfort and London according to Mr Schumacker The company pays the Government $50 000 a year rental and $2 royalty on every skin, and is limited to 100 000 skins a year An agent is kept on the islands by the Government to see that the company does not overstep this limit Dawes stated that he had strongly opposed the legislation under which the contract was made but he was compelled to acknowledge the experiment had worked well Other members denounced the monopoly as one of the most gigantic swindles of the age and Schumacker was particularly severe in his criticisms

We are in receipt of a private letter from Salem in which the writer says Davenport literally destroyed Dick Williams at Salem Saturday night Dick [illegible] confused and entangled in his endeavor to defend the conduct of the ring but his friends were mortified beyond expression He finally was [illegible] to come out and admit openly that the administration of the General Government is corrupt in the extreme and that he was utterly unable to defend the political methods of the Portland ring He even went so far as to point to the Albany Convention and the [illegible] resolution (which by the way has never been rescinded) as illustrations [illegible] of the ring to the Republican party and their selfish willingness to destroy it rather than yield their own personal [illegible] This was [illegible] very coolly [illegible] vassing the State [illegible] for Congress [illegible] is understood to be the actual [illegible] in the ring [illegible] Dick's speech is pronounced a complete failure, and his friends cannot conceal their mortification

Mr Geo F Hoar asked the Speaker of the House the other day by what authority the words 'applause' 'laughter' etc are published in the official report of Congressional debates The Speaker replied that such expressions only indicated that members had violated a rule forbidding applause or other demonstrations and that hereafter the words would be omitted This done how [illegible] constituencies to know how the brilliant wit or the correct periods of their chosen orators are received As a matter of economy the new departure may amount to something in Sunset Cox's speeches a vast amount of printing will be saved

Some of the members of the House District Investigating Committee think the House is not in hearty sympathy with them and that it is too slow to condemn Robert S Hale of New York has resigned the chairmanship of the Committee because the House has repeatedly refused to sustain his recommendations recently and Mr Harmer of Pennsylvania who stands second on the Committee has declined to take the vacant place for similar reasons

JURISDICTION OF OUR COURTS IN SUITS AGAINST BRITISH VESSELS—A case involving an important question as to the jurisdiction of our courts in suits against British vessels came before Judge Donohue yesterday for argument in this Court It appeared that Cornelius O'Brien and Peter Holsten shipped on board the British bark *[illegible]* at Rotterdam on December 1 187[illegible] for a voyage to New York and to a port of discharge in Great Britain the voyage not to exceed one year On the arrival of the vessel at this port on the 12th of March last the men as they claim were discharged but the master claims that they were not discharged but were deserters A suit was commenced for their wages in the Supreme Court and the vessel attached The British Consul presented his protest against the jurisdiction of the court in suits of this character A motion was made in this court yesterday to vacate the attachment for want of jurisdiction. It was a case apparently in which Judge Donohue from his long admiralty practice, was wholly at home for after hearing the argument he promptly denied the motion with costs —*N Y Herald, March 25th*

At a recent evening session of the National House of Representatives the members present consisted of one gentleman in the chair, one other gentleman who was desirous of making a grand speech and two members who were writing letters at their respective desks The gentleman who was going to speak had an appreciative audience of six members of his own family in the gallery

The latest contribution to the lexicography of the future is the following, by the New York *World* Buttle v a, to connive at blackmailing merchants and plundering the Treasury Butler n one who buttles

The St Louis *Globe* states that at the end of the present session of Congress General Schurz will resign his seat and return to St Louis to edit the *Westliche Post*,

CITY.

A FATAL FALL.—Saturday afternoon, about 2 o'clock, a sailor belonging to the ship *Alden Besse*, fell from the upper wharf at Holladay's Mill, and was killed. The vessel is at present receiving lumber at the saw mill below the city. Nelson, for that was the name of the sailor, was engaged at the time of the fatal accident in assisting to load the vessel. Leading from the upper wharf down to the deck of the vessel is a chute along which the lumber is slid. While Nelson was in the act of placing a piece of scantling on the top of the chute he lost his balance, and pitched headlong forward. From the top of the wharf to the deck of the vessel is sixteen feet. In his descent Nelson struck against the end of a projecting piece of timber, with one side of his face and head. The violence of the blow produced a fearful contusion, and no doubt was sufficient to produce death. After striking Nelson rolled off into the river. Several persons who witnessed the casualty shouted out, "A man overboard." This brought to their assistance a number of men who were engaged about the wharf. Confusion and excitement followed, and some little time elapsed before a rope or boat could be brought into requisition. Immediately on striking the water Nelson sank from sight. The force of the fall had knocked him beyond consciousness, if, indeed, it had not killed. If any life was in him after touching the water, that element quickly destroyed it, as he was totally unable to move hand or foot; 15 minutes had elapsed before the body was fished out and brought to the surface. But the vital spark had flown forever. Undertaker Cooke was notified of the accident, and lost no time in conveying the remains to the dead-house. As the accident was witnessed by a number of persons, it was deemed unnecessary to hold an inquest over the remains. Pursuant to instructions from Captain Noyes, of the *Alden Besse*, the body was decently buried yesterday about noon. Deceased was a large powerfully built man, aged about 45 years. He shipped at San Francisco, and consequently but little is known of him by the remainder of the crew. It is not known whether he leaves a family or not. We are unable to obtain his first name.

ON THE WAY.—The steamer *Ajax*, which sailed on Saturday from San Francisco for Portland, brings the following passengers: Charles A. Hughes, C. B. Wright and son, Miss L. Vaughn, D. Morgan, Jr., M. W. Henderson, Miss M. Reese, W. H. Fife and family, H. P. Miller, A. Goldsmith, T. G. Miller, G. Gerst, S. A. Francis and wife, F. C. Arnold and wife, Mrs. S. Lamont, Mrs. N. A. Moyer, Mrs. A. J. White, Jos. Wagner, M. Bridgeman, Jr., Wm. Powell, P. B. Fox, L. S. Rosenbaum, Thomas Erwin, D. T. Welch and family, L. Bettman and nephew, H. D. Stimpson and wife, J. Blair, A. J. Harvey and family, J. Tattler, J. M. McLaughlin, W. M. Hussey, Mrs. C. M. Curtis, Mrs. H. J. McCullough, Mrs. J. Teitters and child, P. Benedict and family, S. J. Fullerton, sister and niece; Mrs. S. Morrison and child, Miss M. Ansbertz, O. P. Shitts, P. Stewart, R. J. Wilkin, J. S. Tilton and family, Miss Goodell and sister, H. Hass, Miss I. Linson, Miss M. Miller.

FAILURE TO ARRIVE.—Saturday morning the announcement was made that Hon. T. W. Davenport, candidate for Congress, would address the citizens of Portland. On the arrival of the cars in the evening, it was ascertained that Mr Davenport did not arrive. So far as was possible, the fact that there would be no speaking at the Court House was spread up to the appointed hour. Notwithstanding the efforts thus made to counteract the previous announcement, quite a large crowd of people assembled at the Court House, and numbers began to pour in, under the impression that there would be speaking. However, the announcement was formally made that in consequence of the non-arrival of Mr. Davenport—he having a previous engagement to speak at Salem in opposition to Mr. R. Williams—there would be no speaking, and the crowd was dismissed.

"The Lady of the Lake" and "Poppleton's Predicament," drew large houses on Saturday afternoon and evening at Oro Fino Theater, at the last renditions. A splendid degree of success has attended the production of these plays, and we presume the receipts must be quite substantial. All connected with it have reasons for self-congratulations at the degree of proficiency evinced in the various characters assumed. Throughout it was highly creditable to individual performers, and satisfactory to the public. We had intended to give a much more extended notice of the last rendition of the pieces, but the crowded state of our columns scarcely permits more than a passing allusion.

DRUM MAJOR'S HAT.—Rummelin & Guttmann, the furriers, have just finished a Drum Major's hat for Mr. Anderson, teacher of the Drum Corps. It is of the Uhlan pattern. The body of the hat is made of white astrachan, the crown with blue flannel, with lappel overhanging on which is fixed gilt tassels. On the front is a large and brilliant star. A tri-colored plume of feathers protrudes from the crown front. The chapeau is quite attractive. In addition to the hat, exhibited in the store windows of Rummelin & Guttman, is a gold-corded sash, which will be worn by Drum Major Anderson. These two articles will add greatly to the dress worn.

TEMPERANCE MEETING.—Taylor Street M. E. Church was filled to its capacity last evening at the Union Temperance meeting. Judge Greene of Olympia, delivered a most logical and eloquent address in which the legal features of the temperance question were discussed in a very able manner by that talented gentleman. Mr. H. H. Northup at the conclusion of the address, read a poem entitled "I've Drunk My Last Drop," which was very acceptably recited. Throughout, the meeting was one of peculiar interest. There will be no meeting this evening, but to-morrow they will be resumed.

DRAMATIC ASSOCIATION.—A few days ago the [illegible] Amateur Dramatic Association was organized with the following officers: W. G. [illegible], President; Charles M. Brown, Secretary; R. C. White, Stage Director; C. Marks, Property Man. It is the intention of the association to produce at different times plays of an interesting character, and no pains will be spared to place the pieces upon the stage with all the effects. The characters will be placed in competent hands and every detail will be [illegible] detail. We shall be better able to speak of the organization as it becomes more fully established.

AN OLD PIONEER GONE.—Intelligence was received in this city yesterday of the death of Sam. D. Smith, an old resident of Oregon and Washington Territory. Mr Smith will be remembered by many as an intimate personal friend of General Grant. When Grant was in the service on this coast, Sam. D. Smith was his clerk. The closest intimacy existed between them, and when, by a sudden turn in the wheel of the Fates, the Silent Man of Destiny was boosted into the White House, he remembered sundry little kindnesses bestowed by his old friend, and rewarded him with the office of Postmaster at Walla Walla. Smith was an ardent Democrat, and the appointment caused quite a flutter among the Republicans of that city. But the President stuck to his policy, and had the gratification of knowing that by his aid the declining days of his former associate were made comfortable. A year or more since, Mr. Smith suffered the amputation of both legs, those limbs having become useless from constant and severe attacks of inflammatory rheumatism He died on Saturday, at 10:30 P. M., from general debility, we understand, although the immediate cause of death was inflammation of the bowels.

LEASED.—Messrs. Otto Treuer and Henry Ludwig have, we learn, leased the East Portland Park for the coming summer. Carpenters are engaged in erecting booths, a new dancing platform, etc. It is the intention of the lessees to have a band of music to give an out-door concert once a week, after good weather fairly sets in.

CASE CONTINUED.

Saturday, 1 o'clock, was the hour designated by Judge Denny on Friday for the trial of six of the twenty-one ladies who were arrested for praying and singing on the sidewalk. The Police Court, long before the hour appointed, was literally jammed, and many, unable to obtain admission, were obliged to go away. A few minutes before 1 o'clock the six ladies, against whom a charge was preferred, filed in the court-room and were assigned seats within the bar. They were accompanied by a large number of lady friends and sympathizers, who were also provided seats. Every inch of available room along the passage-ways was occupied by crowds of anxious spectators. Fifteen minutes after 1 the Court was called to order. The following is the complaint preferred against these ladies, which we publish *verbatim*.

City of Portland, pl'ff, vs. Mrs. Shindler, Mrs. Sparrow, Mrs. Stitzel, Mrs. Ritter, Mrs. Fletcher, Mrs Swafford, Miss DeVore, Miss Cranston, Jane Doe and Sally Roe, defendants, is accused by this complaint of violating Ordinance No. 475 of the City of Portland, committed as follows: The said defendants, on the 16th day of April, A. D. 1874, in the city aforesaid, did willfully and unlawfully conduct themselves in a disorderly and violent manner, on the corner of First and Morrison sts., by making a loud noise and creating a disturbance, whereby the peace and quiet of said city was disturbed, and contrary to the Ordinance in such cases made and provided. Dated Portland, the 17th day of April, 1874. M. F. Mulkey, City Att'y. State of Oregon, County of Multnomah, ss: I, Walter Moffett, being first duly sworn, say the foregoing complaint is true as I verily believe. Subscribed and sworn to before me, this 17th day of April, 1874. E. A. Cronin, Notary Public for Oregon.

In behalf of the city, M. F. Mulkey and E. A. Cronin appeared, and for the defendants, Messrs. C. W. Parrish, H. H. Northup and T. V. Shoup. To the above complaint the following demurrer was interposed, which we insert:

City of Portland, plaintiff, vs. Mrs. Shindler, Mrs. Sparrow, Mrs. Stitzel, Mrs. Ritter, Mrs. Fletcher, Mrs. Swafford, Mrs. DeVore, Miss Cranston, Jane Doe, Sally Roe, defendants: Now comes the defendants, by their attorneys, C. W. Parrish, T. V. Shoup and H. H. Northup, and demurs to the complaint herein for the reasons:

1. That the same does not state facts sufficient to constitute a misdemeanor or crime.
2. That the same does not allege facts, but conclusions.
3. That the said complaint does not substantially conform to chapter 8, of the criminal code of Oregon.

This demurrer was argued *pro* and *con* at some length by Messrs. C. W. Parrish, H. H. Northup and M. F. Mulkey. At the conclusion of the argument the Court retired for a short time to deliberate. Resuming his seat in about fifteen minutes, Judge Denny stated that after due deliberation and examination of authorities, he should overrule the demurrer.

Mr. Cronin now moved the Court that the defendants be arraigned and plead to the charge.

Mr. Parrish objected, and moved the Court for separate trials for each defendant. The motion was argued by Parrish and Mulkey, and finally overruled by the Court.

The defendants, six in number, viz: Mrs. Shindler, Mrs. Sparrow, Mrs. Stitzel, Mrs. Ritter, Mrs. Fletcher and Mrs. Swafford, were then arraigned and the complaint read.

Mr. Parrish, in behalf of the defendants, entered a plea of not guilty, and demanded a jury, which was to be drawn from the special list.

The Court then continued the case until this morning at 11 o'clock.

LATEST FROM THE MINES.

LATE AND IMPORTANT NEWS FROM THE STICKEEN AND CASSIAR MINES.

The steamer *Otter* arrived at Victoria on the 14th inst., from the north, with several passengers

From the *Colonist* of the 15th and 16th we glean the following news

Mr. A Choquette (Buck), who went up on the first trip of the *Otter* this year has been through to the mines and reached Wrangel, on his return, the night before the *Otter* arrived He reports having discovered another paying gulch, also that Ike Stevens & Co. were making $8 a day on a piece of ground which they had been able to thaw out on one of the creeks discovered last year.

Mr. Sylvester, the expressman, was at Wrangel awaiting the arrival of the *Otter*, and intended to start again for the mines the day after that vessel left. Several of those who went up on the last trip had returned to Wrangel, finding traveling difficult on account of water on the ice It is improbable that the Stickeen river will be open before the end of this month.

The Nass and Skeena rivers are still both closed, and the Government trail men who went up on the *Otter* do not expect to be able to ascend the latter for another ten days.

Mr. Huson, of Alert Bay, has forwarded some fine specimens of building stone to Mr R. Foster, and has had about a hundred cords of wood cut for steamers on the Stikeen route.

Two miners who left Victoria about the end of January and who have been through to the diggings, furnish the following information of "matters and things" there:

The snow from Buck's Bar averaged about 30 inches, was soft and spongy, there having been no night-frosts to form a crust, and snow-shoes were necessary. Excellent use was made of the dogs in hauling the tobogans. The men who were first on the creeks had confined their operations to the old diggings. Six and a-half miles of Dease Creek were staked off, and the miners, after obtaining good prospects, had commenced to build cabins About 250 men were on the creeks.

Provisions of all kinds were from $1 to $1 50 a pound at any place above Buck's Bar. There was no supply at Buck's Bar. There were only about 30 sacks of flour at the diggings for sale at $50 per sack.

The trip with a loaded tobogan from Buck's Bar to Dease Creek consumes nine days. Men were paid $50 for packing in goods.

A Chinaman named Ah Kee was missing. He belonged to a party of Chinamen known as Ah Mann's He wintered on the Skeena and had about $250 in his possession. He was missed a short distance above the H. B. Company's post, having turned back to buy an ax. Foul play is suspected.

A notice has been put up on Stickeen river informing Chinamen that they will not be allowed to enter the diggings on penalty of frightful consequences.

A miner, while descending a steep hill near Dease Creek with a tobogan, was run over by it and badly injured.

Two hundred and fifty men were encamped on the Stickeen river banks.

Snow on Dease creek was four and five feet deep. The thermometer stood below zero on several consecutive days in March.

When our informants left the "boys" were thawing earth to prospect the claims.

Mr. Moss informs us that the Government trail men, who went up on the last trip of the *Otter*, were still at Port Essington, unable to proceed with their supplies.

Great numbers of British Columbia Coast Indians had started for Stickeen to engage in packing.

The ice in Stickeen river is breaking up slowly. In some places the traveler comes across great fissures and chasms in the ice through which the water foams and spouts in its eagerness to surmount the barrier. In other parts, where the current is not rapid, the water lies on the fields of ice and men have to wade through it waist-deep. Of course, all this makes traveling both difficult and hazardous, and few care to imperil their lives in braving the difficulties and have encamped on the river-bank to await the final break-up. Rath Bros., Moores' and the Cornish claims were jumped; but whether all or only a portion of the ground has been taken our informant does not know.

BASE BALL NOTES.

The Crescents expect to go to Vancouver on Saturday and play the Star Club of that place. They will bring back a trophy, providing, of course, if they play as well as usual.

The "Home Runs" won a bat from the "Actives" on Friday by a score of 77 to 17, Samuel Percival umpired. The game was played near the Bishop Scott Grammar School.

The first game between the Philadelphia and Athletic Clubs, which is to take place on the 16th at Philadelphia, is looked for with a great deal of interest; both clubs are in fine trim and feel confident of victory.

The Athletics of Philadelphia opened play for the season on Monday, at Philadelphia, in a match game against the crack amateur Modocs, defeating them easily by a score of 27 to 4. On Saturday they played against a very strong field nine, again winning by a score of 16 to 3.

On the 2d inst. the Atlantics of Brooklyn played on the Capitoline Grounds against a strong field nine of professional and amateur players. The game was umpired under the new rules, and was won by the Atlantics by a score of 9 to 8.

At a meeting of the Arcadian Base Ball Club held on Saturday evening, committees were appointed to arrange the grounds for play and to select a suitable uniform. Two nines will be formed from the members, and a practice game will be played on Saturday next. The first nine will be selected at an early day following.

Spaulding has laid before the representatives of the Boston and Athletic Clubs a full list of expenses which would be incurred on the trip to England. Upon this statement and the additional showing by Mr. Spaulding, the clubs have decided to undertake the trip. It is believed that the expenses of the excursion will be amply defrayed by the means provided.

THE STAGE.

Lew Parker, the negro comedian, is at Denver, Colorado.

Cogill and Cooper, the cloggists, are still at Olympic Theater, New York city.

Johnny Tuers, the negro comedian, with the Royal Tycoon Japanese Troupe, are at Santa Rosa, Cal.

Frank Mayo has been playing a highly successful engagement in "Davy Crockett," at the New York theaters.

John Wilson's Amphitheater in San Francisco is still one of the attractions. Constant changes occur in the company.

The greatest drawback to the introduction of the latest theatrical and musical novelties in this city is the great expense of traveling by steamer and overland.

Madame Anna Bishop "has consented" to sing *once more* to the San Francisco public and in conjunction with Alfred Wilkie, Frank Gilder and others, will appear in the Old Folks' Concert in that city on the 22d inst.

AMUSEMENTS.

This evening McKay's famous band of Indian warriors will appear at the Oro Fino Theater, and give one of their unique performances, consisting of war dances, characteristic songs, etc. These Indians, it is well known, took a prominent part in the Modoc war, and for that reason have made for themselves quite a reputation for their bravery and devotion to the Government. Those who have seen the braves in their peculiar performance pronounce the entertainment as exceedingly attractive. As they leave on the steamer but two performances will be given, and the opportunity to see them should be taken advantage of. Reserved seats can be obtained at Steel's music store

We, the undersigned, wine and liquor dealers, doing business in the county of Multnomah, considering it our imperative duty to protect ourselves against the aggressions of a portion of this community who revile and persecute us under the sacred name of "Religion," and whose ultimate object we believe is to secure the enactment of laws in this State discriminating against our business, do hereby agree to meet at Armory Hall on the 23d of April (Thursday) next at 8 o'clock, for the purpose of considering the best means of protecting ourselves against such unjust proceedings.

BALD MOUNTAIN.

THE SENSATION A THIRD-RATE HOAX—AN INDIAN LEGEND.

[Richmond (Va.) Correspondence of the New York Times.]

The Bald Mountain volcano of North Carolina has been regarded as a third-rate hoax here from the publication of the first sensational rumors in regard to it. The truth is, doubtless, that this new sensation is but the revival of an old tradition, derived from the Indians, that Bald Mountain was once, in very remote times, a volcano, and hence that absence of vegetation which has given it its name.

The Indian legend is to the effect that a certain tribe living at the foot of Bald Mountain was annually afflicted by the visit of a huge bird of prey, that made his eyrie on the summit of the mountain, and that on every visit seized and carried away with him a child of the tribe. This annual affliction had been undergone for a long series of years, when a great Chief and medicine man arose, and, just before the time for the next annual visit of the bird, began to preach a crusade against the common enemy. He adjured the warriors, as they were brave men and loving fathers, no longer to submit to the depredations of the bird, but to march against him and destroy him or be destroyed.

Thus aroused, the men of the tribe swore to follow the Chief in the desperate venture, and, placing their squaws and children in a place of safety, they encircled the base of the mountain and began the ascent, resolved to kill the bird at all hazards and at every cost. The mountain was then clothed in rank vegetation—mighty forest-trees thickly undergrown by a tangled wilderness, that made the progress upward very painful and difficult. But the determined tribe persevered, until, nearing the mountain, what was their horror to perceive that it was not merely one tremendous bird they had to encounter and destroy, but a countless number of the fierce creatures, clustering in ferocious masses all over the higher portions of the mountain.

At this despair overcame them, for they at once recognized how impossible it would be for them to overcome and exterminate so many of the winged monsters, and they threw themselves down on their faces, expecting the birds to rush down upon them and destroy them. At this moment their leader raised high his voice to the Great Spirit for their deliverance, and in answer to his prayer vivid lightnings, sprung from every quarter of the cloudless sky, without a sound of thunder, slaying the birds to the last one, riving the forest trees, and wrapping the whole mountain top in flames, that soon swept from it every trace of vegetation. Thus were the monstrous birds of prey destroyed, the mountain made bald, and the tribe delivered. The anniversary of the deliverance was perpetually celebrated by the tribe, and the tradition I have just related handed down from one generation to another

In this tradition lurks the true story, doubtless, of either the original formation of the ridge known as the Bald Mountains, or of an eruption which occurred many ages ago.

THE GREENBACK AS A TRANSPARENT FRAUD.—The greenback, says the New York *Sun*, as it stands is a transparent and inexcusable fraud. It is sometimes said to rest on the property of the nation and the good faith of the nation. This is all a chimera. It rests on nothing. It has nothing behind it, and there is nothing pledged to redeem it either now or in the future. It is a living, fraudulent promise. The Government promises to pay on its face, but the Government does not pay and will not pay. The greenback is nothing, therefore, but a flaunting lie. It is a paper token merely, made a tender for the payment of debts. But no paper tender can stand, none has ever stood, the shock of a great national calamity.

Danbury *News*: Thursday evening of last week was a spring evening. Forty thousand screaming demons rode the winds that surged through our streets, crumbling up the hard snow and frozen mud, and plunging pedestrians with the powder. All night long the demons howled, shutters rattled, signs creaked, branches groaned, and shed doors slammed. All night long the beautiful birds of spring hung their heads, and hushed their carols and all night long the sweet flowers of the gladsome spring-time shrunk within their petals, and smothered their fragrance in their palpitating bosoms, and boarders screamed for more quilts

The storekeeper who can lay in large and varied Stocks of Goods, should be able to afford his patrons excellent opportunities to purchase just what they want at the lowest figures. This is just what JOS. KOHN, opposite National Bank, invariably does. His latest importations are so varied and the prices marked down so low that all can be accommodated. Be sure and look through his stock.

"Horse Men, and others who pretend to know, say that the following directions had better be observed in using *Sheridan's Cavalry Condition Powders*. Give a horse a tablespoonful every night for a week, the same every other night for four nights, the same for a milch cow, and twice as much for an ox. The addition of a little fine salt will be an advantage

We have heard recently of several severe cases of spinal disease cured by *Johnson's Anodyne Liniment*, one case of a man forty five years old, who had not done a day's work for four years. The back should first be washed, then rubbed with a coarse towel. Apply the Liniment cold, and rub in well with the hand.

DEAFNESS CAUSED BY CATARRH.

Catarrh not unfrequently produces deafness.

MR. LEVI SPRINGER, of Nettle Lake, (P. O.) Williams Co., O., formerly of Burban's Corners, O., has been cured of deafness of fourteen years' standing, by using Dr Sage's Catarrh Remedy He was so deaf he could not hear a person talk when seated by his side, and can now hear the church bells ring two miles distant—so he writes.

A MARKED CASE OF DEAFNESS CURED.

DICKERSONVILLE, King Co., N. Y., Feb 25, 1871.

About one year ago I caught a severe cold in the head which terminated in a severe form of Catarrh During the time ulcerations occurred in the nasal passages, and I became wholly deaf in one ear, with partial deafness in the other. The inflammation had involved all the delicate structures of the ears, and I was in immediate danger of permanent deafness. The discharge became profuse and fetid, both into my throat and from my ears. In this condition I called on Dr. Pierce for aid, who prescribed his Golden Medical Discovery and Catarrh Remedy, and under their use have rapidly recovered. My hearing is restored, and my Catarrh is entirely well.

TATOOSH ISLAND, ETC

[Correspondence Seattle Intelligencer]

Tatoosh Island is situated at the mouth of the Straits of Fuca sixty-four miles from its head—the beginning of Puget Sound—and one half mile from the main land of Clalam county, W T It is a small body of land containing only 30 acres, and rises abrupt and perpendicular from the ocean 98 feet Its crown is undulating and covered with a luxuriant growth of coarse grass, its form is nearly circular, and its walls composed of conglomerate rock which though of great solidity are being gradually undermined and wasted away by the incessant action of the water

Cape Flattery lighthouse (established in 1857) stands upon the western side of this island, and a fog signal was erected here within the last year and a half The lamp is of the largest order in use in the United States, and displays a fixed white light The main building is a story and a half high, is composed of brown stone and the tower of brick The light is fifty feet from the ground and 162 feet above the sea level This establishment is of greater importance than any other on the Pacific coast, with the single exception of that at the entrance to San Francisco bay Four keepers are employed, of which Mr J C Floyd is the principal

A record is kept of the vessels sighted each day from this light and from it we take the following list for the year 1873 ships, 250 barks, 868, brigs 78 schooners, 320, including two pilot boats, sloops 13, steamers, 160, making a total of 1,547 This does not include many vessels which must have passed in the night

The scenery along the coast here is of the wildest character The water in most places dashes against the rocks and at the base of perpendicular rocks and high cliffs upon the brink of which tall spruce trees maintain their scant hold, and look as though the lightest breeze might precipitate them In places great chasms extend backward piercing the mountain side many hundred feet, across and into which the trees bordering on the edges, cast lengthening shadows, deepening the twilight always gathering within them. Seal, otter, and other sea creatures are found in these unfrequented places, ocean birds resort here during the season of incubation, as within these caverns they are comparatively free from molestation

All along Cape Flattery appearances induce the belief that the ocean has encroached considerably upon the land Tall rocks stand in close proximity to the shore, and must have at no very distant day formed a part of it

The view from Tatoosh Island is at any time one of chaotic grandeur, but it reaches the sublime when, forced by a gale of wind, the ocean rushes against the base of the cliffs and crags in vast swells, and sends its foam and spray clear over the summits, veiling them from sight

The mouth of the Strait is about eighteen miles wide, and upon Vancouver Island the same rugged and disordered outline is preserved The mountains are, perhaps, higher than on this side, and in stormy weather their summits are hung with black and threatening clouds At such times they look gloomy and forbidding, but in the clear morning light they doff their somber hues and appear most beautiful and distinct As the sun emerges from the east, crimsoning the sky, flashing upon the waters, touching the snow-crested peaks and forest summits with ten thousand fingers of golden light, creeping further and further down the mountain sides, showing wide rifts, deep gorges and perpendicular walls—showing clear cut and defined a seeming brotherhood of snowy mountains miles away to the northward—marking by a faint line of white the meeting of the ocean and the land—a picture is formed so bright and beautiful that I am totally incapable of describing it

In the evening of a clear day, when the view is unobstructed by intervening clouds, all the glories of a "sunset at sea" can be enjoyed from Tatoosh Island, As the sun sinks into the ocean it appears as a great burnished surface of gold, making a broad dazzling pathway across the waters, which changes into a thousand sparkling brilliances with the motion of the waves it stains the sky above with beauties all its own, and rests with warmth and light upon the rocks and trees along the shore

REWARDED

A GOOD DEED BRINGS $1,000,000 TO A FLORIDA MAN

We find the following in a Jacksonville, Florida, paper of recent date

More than 20 years ago Major Waldo A Blossom, who is now in Jacksonville, was a resident of Washington While there chance cast in his way a young man named Larimer, in whom he became deeply interested Larimer had been led astray by the influence of wicked associations, and was utterly dissolute and dissipated—to all appearances a moral and physical wreck.

It is more than probable that Major Blossom discovered redeeming qualities in the young man, notwithstanding the depths to which dissipation had brought him, for the Good Samaritan rescued him from the gutter, gave him a pleasant home and assisted him by counsel and the aid of fine social influences to make himself a new man After his reformation was effected, the young man returned to his parents, who resided in Colorado, and for a number of years his generous benefactor heard nothing of him

In December of last year Major Blossom's attention was called to an advertisement in a Boston paper, over the signature of "Larimer" inquiring the address of W A Blossom He responded to the inquiry, and soon received a letter from the parents of his former protege, in Castello county, Colorado, informing him that their son, in dying had willed his property to him in gratitude for the kind deeds of years agone.

The letter, which feelingly alluded to this act, gave the sequel to the reformed man's life He applied himself vigorously to business after his return to Colorado, became an honorable and useful member of society, and in a few years amassed a large fortune all of which, valued at $1,000,000, will fall into the possession of Major Blossom next June

No act of genuine charity is ever lost Somewhere in the conservatory of good deeds the plant will put forth its blossoms and shed its perfume perhaps in the balm and brilliance of the eternal morning, perhaps in the subdued light and murky atmosphere of the mortal life

A BIBLE IN THE STOMACH OF A CODFISH —A few days ago the *Scotsman* mentioned, that a Bible bound in calf and bearing the name of "William Sim, a Dundee man and the date 1830, had been discovered in the stomach of a codfish This fact was remarkable enough, but still more extraordinary is a circumstance connected with the affair, also reported by the *Scotsman* The very same day on which the discovery was made known the heirs of the deceased Sim succeeded in obtaining a warrant in the outer house of the Court of Sessions (from Lord Ordinary Mure) to uplift several hundreds of pounds belonging to the said William Sim who was described in the legal proceedings as a sailor a native of Dundee who had gone to sea about 1834, and had not since been heard of There can be but little doubt that the Bible thus preserved in the codfish's stomach belonged to the lost W Sim, of Dundee

The Boston *Pilot* (Roman Catholic) has the following good words about the murder of the missionary Stephens in Mexico "It is said that a priest instigated the crime which we cannot believe But should it turn out to be true the crime of all the mob should be intensified on his head by a terrible punishment The wretches who could kill a man with a religious cry on their lips are the greatest wretches in the world

THE VIRGINIUS HERO REWARDED —A New York dispatch of the 13th says it is learned that Sir Hampton Lorraine, the commander of the *Niobe*, has been promoted by Great Britain for his action in the *Virginius* matter at Santiago de Cuba

The Wool Trade of the Pacific Coast

The [illegible] placed on the [illegible] coast which [illegible] importance [illegible] of wool and the manufacture [illegible] the hands of capitalists [illegible] ranked as the great growing industry of the coast *The Rural Press* of April 11th speaking of this branch of industry says

There is as much country favorable for wool growing on the Pacific slope as in all the rest of the United States and the day will come and that in the near future when every one of these hills and valleys will be white with millions of sheep Their wool will not be always exported It will be manufactured at home amongst us We have abundance of water power in the thousands of streams that descend from the mighty Sierras the Cascades and the other giant mountains of the Coast and where water power is not available we have localities adjacent to some of the most productive coal mines in the world where as busy scenes of industry will be witnessed as are now in the streets of the great manufacturing cities of both New and Old England In fact we hazard nothing in predicting that the wool industry will of itself alone task the labors of hundreds of thousands of workmen But we have many things to learn our farmers have to learn how to produce a fine quality of wool and how to improve their flocks and our manufacturers how to produce as fine cloths as are turned out by the looms of France It does not detract in the least from their enterprise and from the real merits of the work they have done to say this for considering everything they have made gigantic progress and are fast approaching a high state of excellence in the quality of the goods manufactured equaling and in many cases excelling some of the finest productions of the Eastern looms It is less than a score of years since wool growing first assumed any dimensions in California Then not more than half a million pounds was produced but ever since the quantity has been steadily increasing, last year amounting to over thirty million pounds the Oregon clip amounting to a few million more Of this there was about ten per cent used on the coast The Oregon wool is generally accounted the finest although some claim the first place for northern California—but southern California is not so good Australian which is used to some extent in our mills is accounted by many of the millmen better than either

The *Press* also has details of what all the woolen mills on the coast did in 187[illegible] from which we take a synopsis as follows The whole number of woolen mills on the coast is nine of which six are in California and three in Oregon They have 20,84[illegible] spindles and 232 broad looms Their aggregate capital is $2 000 000 the value of buildings and machinery is $1 [illegible] the number of pounds of wool used last year was [illegible] of a value of $1 200,000, and the value of the manufacture was $3 000,000 Of the wool used 3 680 000 lbs was California [illegible] lbs, was Oregon and 500 000 lbs Australian About 240 000 lbs of cotton was also used Of Cassimeres 11,000 000 yards were made and of blankets flannels etc 1 600,000 yards The total number of employees was 1 3[illegible] of whom 851 were Chinese [illegible] white men, 1[illegible] white boys and 138 white women and girls The wages paid aggregated $[illegible] The value of goods sent East was about $[illegible] and the total exports at least $400 000 Such an exhibit is highly creditable to the coast and gives the highest promise of a glorious future for this industry

Miscellaneous.

The San Francisco *Call* says The favorable prospect for the next wheat crop is inducing an extensive tonnage movement towards this port At New York the latest engagements are the Golden Fleece Garnet and Midas. The Garnet will load coal on account of the Boston owners The Midas will load an assorted cargo for Portland The ships Helen Morris and Ringleader sailed last week for this port with the usual assorted cargoes including [illegible] cases petroleum [illegible] 000 kegs nails 250 tons coal [illegible] barrels whisky 1 [illegible] cases oysters, and 100 bales gunny bags The Undaunted Republic Jeremiah Thompson, Ontario Richard Robinson and St John are loading for this port. The Imperial Logan Privateer and Sonntag have been chartered at New York to load wheat this port for England at 80s

Thirty steamers of large capacity fitted for ice navigation, recently left St Johns Newfoundland, for the seal fisheries off the Labrador coasts during the month of March A fleet of sailing vessels left a few days previous to the steamers All of these vessels go with enormous crews, and capture the young seals or pups on the floating ice before they take to the water The success of the fishery depends much upon calm and moderate weather, and a favorable strike in the line of ice occupied by the seals Favorable voyages are sometimes accomplished in three weeks The Legislature of Newfoundland has taken steps to prevent the extermination of the seals off their coasts lest in the eagerness of pursuit and gain the whole business may be destroyed

The total number of vessels belonging to or bound to or from, ports in the United States reported totally lost or missing during the month of March is twenty nine of which sixteen were wrecked seven abandoned three burned two foundered and one is missing They are classed as follows Four ships, nine barks, three brigs and thirteen schooners, and their total value, exclusive of cargoes is estimated at $600 000

The New York *Bulletin* of the [illegible] inst says The Pacific Mail Steamship Company's great iron steamer City of Peking which was launched at Chester Pennsylvania March 18th arrived at this port Saturday and was towed to the Morgan Iron Works foot of Ninth street East river where she will be fitted out with her machinery and made ready for sea as soon as possible The City of Peking is 4[illegible] feet in length by 48 feet in breadth and her gross tonnage is about 6 000 tons She will be in all appointments one of the most perfect vessels afloat

Holders of wool at New York claim that there is sure to be a difference of at least ten cents per pound between new spring clip and the present stock of fall, which according to their calculations will bring prices of the latter to about 2[illegible] or 2[illegible] cents Oregon has advanced to [illegible] cents for choice with sales of several small lots at that figure Sales of fall California during the week ending the [illegible] amount to about [illegible]00 bales at 11 cents for burry lots and 12@[illegible] cents for fair to choice

Shipping Intelligence

The steamship Ajax left San Francisco for this port at noon to-day and will be due Tuesday evening next

PLATFORM

Of the Independent People of Oregon.

Resolved 1 That extravagance and corruption have become so prevalent in the administration of the affairs of this State and nation as to burden the people with taxes that are not necessary to good government make politics a trade and debauch the morals of society That there is no ground to hope for a remedy for these evils through the agency of the two political parties that have heretofore ruled the country and that the welfare of the people demands that every citizen [illegible] all party [illegible] [illegible]

2 [illegible]

3 [illegible]

4 That we favor the adoption [illegible] National [illegible] the construction of the Oregon and California Railway to the [illegible] of the State and the extension of the Oregon Central Railway to [illegible] That [illegible] the completion of the Oregon Central Railway to [illegible] [illegible] south bank of the Columbia River to the mouth of [illegible]

5 That all property rights [illegible] subject to law [illegible] to corporations [illegible] we would [illegible] demand that the rates of freight and fare on railways within the State be fixed by the Legislature of the State and on interstate railways by Congress

That we demand a return to the salaries fixed by the Constitution for State officers and we condemn all the schemes that have been devised to increase such salaries by indirection That the compensation of all officers should be only such as would pay them fairly for the services they perform that County Clerks and Sheriffs should have salaries fixed by law according to their services that the law increasing their fees should be repealed and a law enacted providing reasonable fees to be charged by them in cases where private parties alone are concerned such fees to be paid by the officers into the County Treasury That we demand the passage of a law to protect the public against unreasonable charges for the State printing

6 That we favor a liberal system of public schools but we condemn the act creating a monopoly in the sale of school books and demand its repeal

7 That we demand the repeal of the Litigant printing law

8 That we demand equal rights for all citizens and accord special privileges to none

9 That the interests of the people demand competition in the transportation of freights to and from our seaboard that we are opposed to the purchase or leasing by the State of the Canals and Locks at the falls of the Willamette but would hold both the State and the Lock Company to a strict compliance with their existing contract

10 That we especially condemn those acts of the Legislature that have enabled speculators to obtain the public lands of the State in large tracts to the exclusion of poor men and men of moderate means who would take them for homes

11 That the removal of a faithful and competent officer merely because of his political opinions is a gross abuse of power That the use of the appointing power to reward politicians for services in conventions and elections is no less corrupt than any other species of bribery That the removal of faithful public officers for the conscientious performances of their duties is an outrage upon good government

12 That personal character is the proper criterion by which to judge of the fitness of men for public position and it is dangerous to entrust the public business to men of disreputable private character

13 That the General Government should pay all the expenses and damages necessarily arising from its course of dealing with the Indians and we demand that our fellow citizens in Eastern and Southern Oregon be indemnified by the Government for their losses and damages in the Modoc war

14 That we are in favor of such legislation on the subject of the liquor traffic as will allow each precinct to decide by a vote of the citizens thereof whether liquor shall be sold in that precinct or not and which shall make the venders of intoxicating drink responsible for damages which may be done by the abuse of that privilege where sale is permitted

1[illegible] That the uprising of the agricultural classes and their organization into a compact society for mutual protection against the extortions of oppressive monopolies commends itself to the favor of every just mind and cannot but result in ultimate good to the whole people

TO THE UNFORTUNATE

NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, COR. COMMERCIAL San Francisco established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea Gleet Stricture, Syphilis in all its forms, Seminal Weakness Impotency, etc. Skin Diseases of years standing and Ulcerated Legs successfully treated,

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed the duties of his dispensary 623 Kearney street corner of Commercial San Francisco where he [illegible] and those requiring his services may find [illegible]

The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgence or from a virus which has been instilled into the system [illegible] pallid emaciated and disgusted faces and broken-down constitutions disqualify them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents or guardians attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it is too late Send them immediately to DR. GIBBON [illegible] who has made private diseases his especial study for years and who is certain to cure the worst cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of the afflicted, to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions the consequence of This solitary vice or depraved sexual [illegible] practiced by the youth of both sexes to an unlimited extent producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures, viz. sallow countenance dark spots under the eyes noise in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confusion of ideas, blunted intellect loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances disposition to shun society, loss of memory hectic flushes pimples and various eruptions about the face furred tongue, fetid breath, coughs consumption, night sweats monomania and frequent insanity If relief be not obtained apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of the above complaint by either of the San Francisco quacks.

Married Men,

Or those who contemplate marriage who are laboring under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DR. GIBBON is responsible and will give his patient a written instrument binding him to effect a radical and permanent cure, or [illegible] charge.

Cured at Home.

Persons at a distance may be CURED at home by addressing a letter to Dr Gibbon, stating the symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country, with full and plain directions By [illegible] Dollars com[illegible] registered letter through post office or through Wells Fargo & Co., a package of medicine will be forwarded to any part of the Union All communications strictly c[illegible]

Caution to the Unfortunate

Beware of the San Francisco [illegible] pretenders who with bogus sworn-to certificates catch the unwary Some of the self styled doctors whose names are to be found in the daily and other newspapers of San Francisco and other places were tradesmen and became too lazy to work at their trades. Some are tinsmiths shoemakers, carriers, intelligence office keepers etc. The only way to avoid imposition is to make inquiry It will cost you nothing and may save you [illegible] As for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting them until you know who and what they are Dr Gibbon does not deceive people by exhibiting certificates pretended patients' [illegible] Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that [illegible] to cure

Address DR J F GIBBON 623 Kearney street corner Commercial San Francisco Post office

REMEMBER TO PUT BOX 1[illegible] ON THE LETTER Consultations FREE.
